Permit Requirements:

Two (2) sets of irrigation drawings are required for submittal, One (1) set will be retained as part of inspection records, and one (1) set will be required for onsite inspection to be given to the property owner on completion of irrigation system. All irrigation system design and installation shall conform to TAC §344.62.

THE PLAN REVIEW PROCESS WILL NOT COMMENCE UNTIL THIS APPLICATION IS COMPLETE

A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at anytime after work is commenced. Upon plan review and approval, the irrigation permit will be issued. Upon completion of the irrigation system construction, a final inspection must be scheduled with the Talty SUD office. ALL PERMITS REQUIRE A FINAL INSPECTION. Failure to abide by all the rules and regulations of Talty SUD will result in disconnection of service until all required permits and inspections are complete. ANY PROPERTY SERVED BY AN OSSF REQUIRES AN APPROVED RPZ DEVICE TAC §344.51.

I hereby certify that I am an authorized agent of the owner, and have the owner's consent to enter onto the property to complete the work. I further hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
